WELCOME TO VIVEKA

You are now part of the Viveka Coach Network.

You bring the transformation.
Viveka runs the infrastructure.

Five steps to set up your practice and start receiving opportunities.

1

PROFILE

Establish your professional presence.

Add your bio, experience, certifications, focus areas, and a high-quality photo. This is how clients and organizations understand your work.

2

PRACTICE

Define how you work.

Set up your programs and session types. Structure your coaching so it runs consistently for every client.

3

INFRASTRUCTURE

Connect your infrastructure.

Link your calendar, set your availability, and connect payments and integrated video. From here, scheduling, billing, and client communications run through one system.

4

CREDENTIALS

Build the credibility clients see.

Upload your certifications, add testimonials, and publish your outcomes. Completed profiles are prioritized in network visibility.

5

OPPORTUNITIES

Start receiving opportunities.

Clients and organizations discover you through the network — including enterprise engagements sourced through Viveka.

Once your profile is live, you're visible across the network.

Profiles with completed setup are prioritized in network visibility.

Your dashboard is ready.
